

RH Electronics, Inc. is an independent, woman-owned stocking distributor of electronic, electrical & electro-mechanical components — serving OEMs, contract manufacturers, and government customers since 1982. Independence means no franchise brand list, no allocation ceiling, and no regional lines: if the part exists, we can find it. Every incoming shipment is inspected against known-good references under an ISO 9001:2015 quality system — with accredited independent test labs at our disposal when deeper analysis is warranted.

What we stock & source

Semiconductors & ICs

Texas Instruments · Analog Devices · ON Semiconductor · STMicroelectronics · Maxim · National Semiconductor · AMD · Spansion · Micrel · Semtech

Logic, memory, processors, analog, mixed-signal — current, end-of-life & obsolete

Discretes, Power & Circuit Protection

Vishay · Microsemi · ON Semiconductor · STMicroelectronics · General Semiconductor

Diodes, rectifiers, MOSFETs, thyristors — incl. JAN / JANTX / JANTXV screened

Passive Components

Vishay · Murata · Panasonic · KEMET

Capacitors, resistors, inductors, filters — commercial through established-reliability MIL grades

Interconnect & Electromechanical

Amphenol · TE Connectivity · Molex · Kings Electronics · Panasonic

Connectors, MIL-circular & RF, relays, switches, sockets, terminals & hardware

No brand list — that's the point. The manufacturers above are a sample of our standing stock. As an independent distributor we source across the entire market: any manufacturer, current or obsolete, including last-time-buy and allocated parts the franchise channel can no longer touch. Search 740,000+ parts at **rhelectronics.com** — or send us the number and we'll find it.

// Services

Component Distribution — active, passive, interconnect & electromechanical, plus the obsolete and hard-to-find

Excess Inventory Solutions — outright purchase, consignment marketing, or warehouse-and-market programs

Warehousing — short to long-term, card-access security, full lot traceability

Part Number Intelligence — alternates by speed, temperature grade, screening level & revision; customer part numbers tracked & referenced on every document

// Value-Added, In-House

- + Assemblies & light manufacturing
- + Kitting · custom packaging · barcoding
- + Tape & reel · dry-pack · nitrogen vacuum sealing
- + 3D scanning & printing · product renderings
- + Digital DNA marking · programming · lead forming
- + Branding, custom labels & print documents

// Quality & Counterfeit Mitigation

- Every shipment inspected on receipt — ISO 9001:2015 QMS
- Microscopy to 3000× · marking permanency · pin-print compare — in-house
- XRF · FTIR · X-ray · decapsulation · electrical test — accredited independent labs, our protocol
- Bake & moisture control · ESD program per ANSI/ESD S20.20-2021
- ERAI member since 1998 · GIDEP participant — live counterfeit intelligence
